Reliable

## MEP Engineering

Kupper Engineering, Inc. delivers complete MEP engineering services that are timely and accurate for office buildings, tenant fit-outs, and upgrades. KEI's clients range from commercial giants to schools, government buildings, and even cogeneration facilities. You get immediate access to world class professionals who take you step-by-step through every phase of the project—from planning and design to construction, implementation, and commissioning.

### New Buildings, Fit-outs, Upgrades

KEI is an engineering leader in advanced new construction techniques, fit outs, and retrofits to existing building infrastructure. KEI's full services range from initial concept through design and specifications. We right-size your envelope and evaluate controls and proper sequence of operations and maintenance, as well as start-up and commissioning .

### HVAC Systems

Heating, Ventilation & Air Conditioning are central to every building project and at the center of many efficiency efforts. Kupper Engineering has designed comprehensive HVAC systems for a multitude of facilities in dozens of vertical markets including:

- ◆ Hospitals
- ◆ Retail
- ◆ Banking
- ◆ Insurance
- ◆ Pharmaceuticals
- ◆ Entertainment
- ◆ Commercial
- ◆ Transportation

KEI's experience includes boilers, chilled water, cooling towers, constant volume, VAV and advanced system retrofits.

### Fire Protection

Kupper Engineering protects your property and valuables from fire hazards by providing complete fire alarm and fire protection systems design and engineering. All KEI's work is in accordance with NFPA, including modifications to existing systems, accommodations for new building components, and even new construction. KEI's systems design experience includes wet sprinklers, pre-action and clean agent systems, and fire alarm and detection systems.

### Construction Administration

KEI's construction contract administration services ensure the design integrity of all drawings is maintained in accordance with the contract documents. This includes:

- ◆ Shop Drawing Review
- ◆ Multiple Site Visits
- ◆ Field Reports
- ◆ Punch Lists
- ◆ Record Condition Drawings
